East Lancashire CCG has developed, in partnership with East Lancashire Hospitals NHS Trust, local GPs and with input from patients and Diabetes UK, a new model of care for diabetes that we would like to share with you. We have developed this as a means of improving diabetes care with the emphasis on ensuring care is available closer to home. The event will be an opportunity to learn more about this approach and to tell us what you think. In addition, we are seeking to create a diabetes patient reference group and a network of diabetes champions.

This event is open to any one who lives with diabetes or is a carer or parent of someone who lives with diabetes.
